## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection. Since the applicant has changed the scope of the invention the office action has been made final.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 5, 6, 13, 16, and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chao US Patent No. 5,095,404 in view of Bhatia US Patent No. 6,357,515. Chao discloses the applicant's invention as claimed with the exception of providing an evaporator section that is greater than a width of the base and the evaporator section having a size of at least a surface area of a heat spreader.

Bhatia discloses a heat exchanger for a portable computing device utilizing active and passive heat dissipation mechanisms that does provide an evaporator section that is greater than a width of the base and the evaporator section having a size of at least a surface area of a heat spreader (see figure 1). Therefore it would be obvious to modify Chao's invention by providing an evaporator section that is greater than a width of the base and the evaporator section having a size of at least a surface area of a heat spreader in order to improve the heat transfer process.

***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
